

The City of Punta Gorda Comprehensive Plan 2025

Public Hearing

To Receive Comments on the

Evaluation and Appraisal Report (EAR)

Planning Commission, March 28, 2011

Public Participation & EAR Process

Projected Timeline

- Public Workshop – July 15, 2010
- Scoping Meeting – August 10, 2010
- Letter of understanding to DCA – September 2010
- 1st draft of EAR completed – December 2010/January 2011
- Planning Commission – Public Hearing / Comments - March 2011

Projected Timeline Cont.

- City Council Public Hearing
 - April 20, 2011
 - May 4, 2011
- Transmittal to DCA – May 2011
- DCA Review for Sufficiency/Non Sufficiency – May-July 2011
- DCA Letter of Sufficiency/Non Sufficiency - August 2011
 - Non Sufficient – Re-adopt with changes
 - Sufficient – Begin process on Plan Amendment to the City’s Comprehensive Plan to be completed within 18 months (This entails the policy revisions outlined in the EAR on pgs 170 – 179)

Identified Major Issues

Issue	Source	Major Issue	Related Element & Comments
1) Development of supportive policies for a functional Transportation Concurrency Exemption Area (TCEA)	City Staff	Yes	<p>Future Land Use: must encourage a pattern of development supportive of the non-auto transport.</p> <p>Transportation Element: Ensure policies are supportive of a Transportation Concurrency Exception Area & the future development of a logical Mobility Plan.</p>
a) Density & Intensity	City Staff	Major Issue Component	<p>Future Land Use: Appropriate densities and intensities given existing and planned levels of Public Infrastructure</p>
b) Pattern of Land Uses	City Staff	Major Issue Component	<p>Future Land Use: locational efficiency of pattern of land uses.</p> <p>Transportation Element: Identify strategies to increase pedestrian safety by promoting traffic calming alternative strategies.</p>
c) Outline a strategy for the development of a Mobility Plan	City Staff	Yes	<p>Transportation Element: A requirement of a Transportation Concurrency Exemption Area.</p>
<i>c-1) Account for all viable transportation modes</i>	City Staff	Major Issue Component	<p>Transportation Element: Analyze all modes of auto, freight, bicycle, pedestrian, neighborhood electric vehicles, air, rail, and transit and analyze potential future use within the TCEA.</p>
<i>c-2) Include provisions for future fixed route or circulator transit</i>	Citizens	Major Issues Component	<p>Future Land Use & Transportation Elements: Creation/existence of transit supportive land uses and bicycle/pedestrian networks should guide system planning, timing, and development.</p>

Issue	Source	Major Issue	Related Element & Comments
d) Analysis of logical extents of a Transportation Concurrency Exemption Area	City Staff	Yes	Transportation Element: Address SB 360 and should be supportive of the concepts outlined in HB 697 greenhouse emission reductions.
<i>d-1) Analysis of existing & committed multi-modal transportation network</i>	City Staff	Major Issue Component	Transportation Element: Develop baseline for Transportation Concurrency Exemption Area.
<i>d-2) Study Existing development pattern & coordinate with FLU</i>	City Staff	Major Issue Component	Future Land Use & Transportation Elements: Proximity, availability, connectivity/access, and balance of residential units to retail/workplace
<i>d-3) Coordinate w/Charlotte County in the definition of the Transportation Concurrency Area boundary.</i>	City Staff	Major Issue Component	Future Land Use, Infrastructure, Intergovernmental Coordination, & Transportation Elements: Ensure coordination of existing and development plans in affected areas.

Issue	Source	Major Issue	Related Element & Comments
2) Analysis of the energy efficiency alternatives	City Staff	Yes	Examine all element policies to address HB 697 greenhouse emission reductions
a) proximity of daily needs and workplaces to residential	Citizen Concern	Major Issue Component	Future Land Use: proximity of uses may reduce number of auto trips and/or vehicle miles traveled. Transportation Element: Component of the new Mobility Plan. Recreation & Open Space: Connectivity between all major residential, commercial, and recreational areas through the completion of the City's Ring Around the City
b) Study optimal commercial intensity/residential densities that are walkable, bicycle friendly, and transit supportive	City Staff	Major Issue Component	Future Land Use: balance of residential units to retail/workplace potential. Transportation Element: This will address a portion of the HB 697 requirements & may overlap w/ other issues discussed in Climate Adaptation and FLU.
c) Sustainable food production	City Staff	Yes	Future Land Use: Increases in local food production could help address concepts of HB 697. Recreation & Open Space Element: Implementation of GOP's identified in the recently adopted Parks & Recreation Master Plan.
<i>c-1) Develop Future Land Use category suitable for local food production</i>	City Staff	Major Issue Component	Future Land Use: Development is required only if analysis supports the creation due to the proximity of appropriate lands adjacency to the existing City Limits.
<i>c-2) Support creation of community gardens</i>	Citizen Concern	Major Issue Component	Future Land Use: Ensure no roadblocks exist to community garden creation. Recreation & Open Space: Implementation of GOP's of the Parks & Recreation Master Plan.
<i>c-3) Study existing and potential food production areas in all of South Charlotte County</i>	City Staff	Major Issue Component	Future Land Use: May identify the need for strategies to annexation non-urban areas for food production area preservation

Issue	Source	Major Issue	Related Element & Comments
3) Analyze Climate Adaptation/Sea Level Rise Strategies	City Staff	Yes	Staff will be reviewing the alternative strategies provided in The City of Punta Gorda's Climate Adaptation Plan which was approved by Council to be used in the EAR review. The goal will be to develop an action plan preparing Punta Gorda for future climate change.
a) Review & evaluate the recommended adaptation strategies with regard to HB697	City Staff	Major Issue Component	<p>Conservation & Coastal Management Elements: Review and add policies to include factors that affect energy conservation.</p> <p>Housing Element: Review strategies for future housing to include use of energy resources based on energy deficient design and construction.</p>
b) Explore City's future directions regarding sea level rise, & reduction of greenhouse gas emissions	City Staff	Major Issue Component	<p>Conservation & Coastal Management Elements: Review and consider strategies from the City of Punta Gorda's Climate Adaptation Plan over the next planning decade. Seek strategies to combat SLR effects on the City's shoreline.</p>
4) Declining Tax Revenues and Budget Cutbacks	City Staff	Yes	<p>Capital Improvement Element: How does the City maintain its LOS and complete capital improvement projects with limited funding and budget cutbacks?</p>

Identified Other Issues

Issue	Source	Major Issue	Related Element & Comments
1) Water Supply Facilities Planning	SWFWMD	No	Infrastructure Element: Update as necessary to continue to provide for necessary public facilities & services correlated to the future land use projections.
a) Look at run-off & TDS w/Water Quality	SWFWMD	No	Infrastructure Element: Currently being reviewed by the Utility Department
b) 18 Month WSP is expected after adoption of the EAR	SWFWMD	No	Infrastructure Element: Review Draft data on Commercial Sheet data to see what if any new strategies need to be in place over the next planning decade.
2) Development of a Historical Element	Citizens, Staff	Yes, locally this is a major issue	<p>Citizens and staff believe this element will be an important component in preserving and protecting historic, archaeological and paleontological resources within the City.</p> <p>Future Land Use Element: Ensure land use designations and overlay districts are identified for historical preservation.</p> <p>Recreation & Open Space Element: Enhances the City's recreation facilities by incorporating it's historic districts & structures and the multi-use recreational trails into the overall park system.</p> <p>Housing Element: Maintain policies that continue to promote and protect the historic resources of the City.</p>
3) Analysis & Updates based on the 2010 Census Data	Staff	No	All Elements: Uncertainty of the availability of the decennial data may require text amendment updates.

Issue	Source	Major Issue	Related Element & Comments
4) Divide the Conservation & Coastal Management	City Staff	No	Conservation & Coastal Management Elements: Staff believes the division of this element will allow for better implementation of the GOP's
5) Aging in Place	County/City Staff	Yes, locally this is a major issue.	Housing Element: Given the economic forecast and the anticipated and the anticipated aging of the City's population , attention needs to be directed toward elderly housing. Future Land Use Element: Review and develop if necessary policies relating to aging in place strategies. Transportation Element: Review & develop if necessary policies relating to aging in place.
6) Inclusion of Legislative Updates	City Staff	Yes	All Elements: Review of all elements to ensure legislative changes are included in all policies
7) Correction of Scrivener Errors	City Staff	No	All Elements: Review of all elements to correct spelling mistakes and other "Housekeeping " issues.

Public Comments Received

- Water Protection
 - City's strategy regarding the education of residents on the use of fertilizer
 - Inclusion of surface water protection
- Population
 - Census data is now available
 - Population section will need to be updated before the Council meeting
 - Table update showing current numbers

Next Steps

- Proceed to Public Hearings for the transmittal and adoption of the draft EAR to City Council:
 - April 20, 2011
 - May 4, 2011
