

## **INFORMATION SHARING REPORT**

### **November 16, 2020**

### **Welcome!**

Isiah Hargrove has joined the City of Punta Gorda as a Sanitation Worker II.

### **Good People Doing Good Things:**

Public Works Right-of-Way Supervisor Dave Meyers and his wife rescued a baby squirrel. The little fellow was left abandoned in their yard and the couple has been raising him since.

While on storm duty Public Works Supervisor, Rick Keeney was traveling down Cooper Street and found this little bunny in the middle of the road in a downpour. He put him in his hardhat and brought him to the Peace River Wildlife Center. They checked the Marsh Rabbit out and said it appeared well just needed to dry off and should be ok. This story made the news and newspaper! Great job Rick!

The Punta Gorda Fire Department (PGFD) would like to recognize Firefighter/Paramedic Kyle Raymond for service above and beyond. Kyle has been a member of the PGFD for 9 years. Kyle is characterized by his co-workers as a “fixer”. Kyle routinely will take it upon himself to fix and repair essential tools and equipment around the fire station or fire apparatus. The most significant difference between our fire department and many others is our employees. We have many employees just like Kyle who take pride in their department and the community they serve and the end result is a hometown fire department that not only provides protection but also customer service that is unmatched. Thank you Kyle and the rest of our department who work hard each and every day to truly make Florida's Harborside Hometown Punta Gorda the best place to live in the south!
