

Florida's Harborside Hometown

INFORMATION SHARING REPORT February 18, 2019

Congratulations:

Taylor Smith graduated from the Southwest Florida Public Safety Academy last week. She will be entering field training at the Punta Gorda Police Department soon.

New Hires:

Ronald J Everts started today as a Project Design Tech/CAD operator in Public Works. Welcome to the City of Punta Gorda team.

Community Outreach:

City Manager Howard Kunik provided members of the Historic District Homeowners Association with information regarding public investment in the Historic District and the Isles since 2005. He fielded a number of questions concerning a lack of perceived infrastructure attention in the District related to sidewalks, road maintenance, drainage and lighting. In addition, facilities which might be incorporated in a new Waterfront Activity Center and parking on side streets were raised as future issues to be addressed.

New Apparatus

The Fire Department has taken receipt of their newest engine a 2018 E-One/Typhoon Custom Pumper. Skip Powell provided Phil Wickstrom with the likeness of the new engine.
